BIOGRAPHY

Zach Lange is one of the firm's lead eDiscovery attorneys. He focuses his practice on the development and deployment of tailored eDiscovery solutions for clients across diverse and highly regulated industries facing distinct information governance and discovery obligations. Zach's clients include leading manufacturers of consumer products, automobiles, and medical devices; healthcare providers; and oil and gas companies. He is a member of WTO's Technology Innovation Cybersecurity Committee.

Zach is a Certified eDiscovery Specialist (CEDS) with over 15 years of experience managing complex discovery matters and guiding clients to develop appropriate strategies, systems, and processes to meet their eDiscovery obligations while addressing budget priorities and realities. Zach's experience includes managing the EDRM process and leveraging data analytics, AI, and other technologies in eDiscovery software platforms. Zach provides genuine relief and support for clients by managing discovery vendor relationships on their behalf; creating and drafting discovery protocols; negotiating ESI Protocols and eDiscovery processes with opposing counsel; addressing issues pertaining to attorney-client privilege and work product immunity; and leading teams of attorneys involved in the analysis of documents and ESI.

Zach regularly attends the Sedona Conference Institute Program on eDiscovery and LegalTech New York, the leading resources in the nation on emerging eDiscovery practices and technology. He also presents CLEs on evolving eDiscovery tools and updates in discovery law.

CASES

- Contributor to the EDRM Revision project that updated the underlying documentation of the EDRM model to reflect changes in technology, process, and the law.
- Participated in an international electronic discovery investigation for a computer hardware manufacturer in response to investigations by the U.S. Department of Justice, the U.S. Federal Trade Commission, and the European Commission.
- Assisted in the successful resolution of 21 arbitrations as part of WTO's Chrysler Group Franchise Arbitrations Team, including the drafting and assembly of multiple successful motions submitted prior to final hearings. These followed the bankruptcy of Chrysler Group in 2010.
- Successfully managed the process of harvesting, filtering, analyzing, and producing electronically stored information (ESI) in numerous complex litigation matters.
