BIOGRAPHY

Dr. Holly Morgan provides medical case analysis, with comprehensive review of medical records, extraction of key data, and in-depth data analysis, in the context of current medical literature. She assists in the development of standard-of-care and causation defense themes in preparation for expert depositions, mediation, and trial.

Experience

- Reviewed cases and gave testimony in multiple venues in Maryland, Virginia, North Carolina, South Carolina, Georgia, Tennessee, Kentucky, Illinois, New York, Massachusetts, Utah, Wyoming, Oregon, Washington, California, and Nevada.
- Provided medical expert case review on matters relating to care of perioperative, perinatal, ICU/ER, and pediatric patients.
- Advised in cases involving complex infectious disease and neuro-vascular issues.
- Conducted pre-litigation case review, preparation of case chronologies, literature review, case analysis, and assistance with coordination of expert testimony. Participation in Montana Medical Legal Panels.
- Served as senior partner and director in an anesthesia practice in Virginia, and served as an anesthesiologist in Georgia and Massachusetts.
